

A watercolor illustration of a rocket launch. At the top center, an orange rocket with a blue window is launching upwards, leaving a large, billowing plume of orange and white smoke. The background is a deep blue space filled with white stars of various sizes and colors. Several planets are scattered throughout: a large blue and white ringed planet (Saturn) in the top left, a smaller orange and white ringed planet in the top right, and another orange and white ringed planet in the bottom left. A blue and white planet (Moon) is in the bottom right. The overall style is soft and artistic, with visible brushstrokes and splatters.

Kabir Turns Six
